

CONSTRUCTION NOTICE NORTH MAIN STREET BRIDGE REHABILITATION

The Town of West Hartford's North Main Street Bridge Rehabilitation project is anticipated to start in January 2020 with preliminary work, which will allow the contractor to start major construction work in the spring of 2020. Project completion is expected in the summer of 2021.

For the duration of the project, the four North Main Street travel lanes will be temporarily reduced to two (one in each direction) to facilitate construction. A temporary traffic signal will be installed to assist pedestrian crossings at the bridge and side street motorist access to North Main Street. Motorists should expect delays and are encouraged to seek alternate routes to avoid the bridge construction traffic as suggested below:

Should you have any questions pertaining to the bridge project, please contact Duane Martin, Town Engineer at 860-561-7539 or duanem@westhartfordct.gov.
